Qualifiers listed below are provided for guidance only and do not establish eligibility. All referrals are welcomed. Patients whose insurance is accepted and who reside within our service area will be scheduled for an initial physician evaluation, during which appropriateness for palliative care will be determined.

- Advanced chronic illness with functional decline (e.g., CHF, COPD, Dementia)
- Recent hospitalization with poor prognosis or high symptom burden
- Frequent ED visits or hospitalizations due to symptom crises
- Poorly controlled symptoms despite standard care
- Need for goals-of-care discussion, advance care planning, or hospice transition

NOTICE:

Referrals for palliative care must include needs beyond opioid or pain medication management alone. Patients seeking opioid management only, without broader palliative care needs, will not be appropriate for this program.

MEDICAL RECORDS MUST BE ATTACHED TO REFERRAL
